Career Objective

I am an aspiring engineer committed to tackling challenges in local and international energy sectors using my expertise in energy engineering. I view myself as a lifelong learner, with a keen interest in advancing my knowledge of science, technology, and innovative engineering solutions.

Education

Khulna University of Engineering & Technology March, 2022 – Present

B.Sc. in Energy Science and Engineering - Khulna-9203, Bangladesh

- Coursework: Thermodynamics | Fluid Mechanics | Heat and Mass Transfer | Power Plant Engineering | Renewable Energy Engineering | IC Engines | HVAC&R | Computer Programming | Engineering Drawing and Simulation
- Result: Appeared in exam

Govt. Science College, HSC - Tejgaon, Dhaka-1215 July, 2018 – January, 2021

- GPA 5.00/5.00

Bright School and College, SSC - Dania, Dhaka-1236 2018

- GPA 5.00/5.00

Training Experience & Workshops

Industrial Attachment, Karnaphuli Power Ltd, Chattogram September, 2024

- Received a nine day training on steam and diesel power plant operation and their key components and subsystems.

Training on Occupational Safety, Health & Environment Management May, 2024

Department of Energy Science and Engineering, Khulna University of Engineering & Technology

- Learned about hazard identification, different risk analysis methods and effective environment management strategies for occupational safety.

Projects

Automated Water Level Controlling Using ESP32 and Micropython

- Designed and implemented a system to monitor and control water level in reservoir using ESP32 microcontroller and MicroPython, integrating sensors and electronic equipments for real-time automation.

Skills

Programming Languages: C/C++, Python, MATLAB

Technologies: Scientific Computation: NumPy, SymPy, SciPy, Matplotlib, Seaborn; Git, L^AT_EX, Linux

Extracurricular Activities

- Treasurer at Energy and Automation Club
- Secured First Runner Up position in Poster Presentation segment at Energy Fest 1.0
